

# And Everybody Else

Joyce Johnson Rouse

God bless America and Everybody Else,  
Protect us from our enemies  
and save us from ourselves,  
Remind us that compassion is a cornerstone of wealth  
And God bless America and Everybody Else.

God bless Afghanistan, Darfur and Niger  
Connect us by our beating hearts  
And through our common air.  
Remind us that we have enough, but none for greed to  
spare,  
God Bless all humankind, especially those who share.

(interlude of Dvorzak *Going Home* theme from New World  
Symphony)

God Bless America to grow into its worth  
We are all just residents  
by happenstance or birth  
Help us lift community ahead of self or purse  
God Bless all living things and our only home, the Earth.  
God Bless all living things and our only home, the Earth.
