

FOR CHRISTMAS

by Ruth Hummel and Joyce Rouse

Your Christmas card arrived today
Full of Christmas cheer
Season's greetings promising
That somehow you'll be here
By Christmas eve I'll hold you
Not only in my heart
And that's when all the magic
Of the holidays will start

CHORUS

For Christmas, I don't need a fancy gift
For Christmas, there's just one present on my list
And when you're in my arms I'll know my wish has come true
All I want for Christmas is you

The snow has started falling
The ground will soon be white
In the distance carolers
Are singing Silent Night
I'll hang up the mistletoe
And decorate the tree
But it won't feel like Christmas time
Until you're home with me

REPEAT CHORUS

For Christmas, all I want for Christmas is you
