

PLANT A TREE

by Joyce Johnson Rouse

If you want to make a bird happy, plant a tree, plant a tree
If you want to make a bird happy, plant a tree, plant a tree
If you want to make a bird happy, singing bright and snappy
If you want to make a bird happy, plant a tree, plant a tree

If you want to do a squirrel a favor, plant a tree, plant a tree
If you want to do a squirrel a favor, plant a tree, plant a tree
If you want to do a squirrel a favor, grow acorns he can savor
If you want to do a squirrel a favor, plant a tree, plant a tree

If you want to help the bees make honey, plant a tree, plant a tree
If you want to help the bees make honey, plant a tree, plant a tree
If you want to help the bees make honey, on a day that's sweet and sunny
If you want to help the bees make honey, plant a tree, plant a tree

If you want to build a home for the critters, plant a tree, plant a tree
If you want to build a home for the critters, plant a tree, plant a tree
If you want to build a home for the critters, so they won't get the shivers
If you want to build a home for the critters, plant a tree, plant a tree

If you want to make the air a little cleaner, plant a tree, plant a tree
If you want to make the air a little cleaner, plant a tree, plant a tree
If you want to make the air a little cleaner, and the Earth a little greener
If you want to make the air a little cleaner, plant a tree, plant a tree
