

A STAR FILLED THE SKY

by Mary Hulburt

A star filled the sky with light
On that first Christmas morning
It lit up the stable room
Where the baby was born

CHORUS

Little children, little children
The star-light's within you
Keep it shining, brightly shining
And your heart will be free

Walk gladly upon the earth
Finding God in every person
The star-light will guide you
And show you the way

REPEAT CHORUS

Speak truth in a loving way
When it calls you in the silence
Teach peace to people
Bring joy to the world
